RE: Investigation Concerning the Propriety of Provision of InterLATA Services by BellSouth Telecommunications, Inc. Pursuant to the Telecommunications Act of 1996 (PSC 2001-00105)

Petition of BellSouth Telecommunications, Inc. for the Establishment of a New Performance Plan (PSC 2004-00391)

Dear Mr. Derouen:

Under the Administrative Provisions of the SQM Plan, AT&T Kentucky provides notice that it will implement certain system changes in the Southeast region. Specifically, as of March 1, 2014, AT&T will retire the Regional Ordering System ("ROS") interface that provides service order information for use by downstream OSS and AT&T personnel during ordering activities. As a result of the retirement of the ROS interface, this completes the migration to the AT&T Business Manager ("ABM") system interface, which is an internal AT&T service order negotiation interface.

Although this OSS change does not substantively change the SQM Plan, the SQM Plan documentation must be updated to accurately reflect the retirement of the ROS interface. Accordingly, AT&T has made minor, administrative updates to the SQM Plan documentation. For the Commission's convenience, red-lined versions of the pages of the SQM Plan which have been updated are included in this filing. The updated SQM Plan will be available for review at the following website: <http://pmap.wholesale.att.com/content/documentation.aspx>. It is important to note that from a performance measurement perspective, the migration to the ABM system interface will have no impact on the service orders within measures currently contained in the SQM Plan.
